Newsletter 01/2021

We are glad that you are interested in news from tdAcademy! The tdAcademy is a research and community platform for transdisciplinarity. As a project, we conduct research on central topics of transdisciplinary research and strengthen the joint production of knowledge. With our website we support the direct exchange of researchers through new community offers and information on events and projects. From now on, the newsletter brings both aspects together and regularly informs you about the latest activities in our research and the community. If you like, feel free to give us feedback - and of course, you are always invited to add your events and projects to the [tdCommunity](#) and to get to know other interesting transdisciplinary researchers.

Event | 9 December, 12-1pm (CET): Hegemony in institutional transformation

This upcoming webinar is a space to explore the concept of hegemony in institutional transformation of universities, while also offering these emerging from a work in progress by the tdAcademy fellows Ulli Vilsmaier, Livia Fritz and Dena Fam.

Systematizing societal effects of transdisciplinary research

Schäfer, Martina; Bergmann, Matthias; Theiler Lena (2021)

In the literature, there is a range of methodological attempts to trace and describe the effects

of transdisciplinary research, but these are characterized by inconsistent definitions regarding the scope and different forms of effects. This article aims to systematize the proposed categories and introduces a heuristic that can be used as a tool to sensitize researchers to intended effects ex ante and throughout the research process, as well as to reflect on the achieved effects ex post.
